

# Business Proposal on Shelter & addictions funding for Belleville Ontario.

**Name: Ashton Derooy**

**Description:** Belleville Ontario has finally had a social collapse of our Downtown district. We have Homeless people sleeping near Downtown Belleville Ontario Businesses, rampant Drug addiction, and feces in the street.

**Intent:** You shouldn't need a Business Proposal format for Political funding. Truly writing this as a Loyalist College 2019 Business Graduate is a Mental Gymnastics of stupidity. However, hopefully, this can summarize cleaning up our town with Compassion. Unfortunately when you elect Conservative people? You elect people with a kind of psychosis that makes them think Politics is a boardroom. **Consider my reasons Parody and awareness!**

## **Concept:**

- **Expanding Socialized Housing** - Make Belleville Ontario into a Hub for Socialized Housing in Ontario. I would prefer to get geared to income. Rather than Fixed-cost rentals. (Geared to income are better maintained)
- **Hire more Loyalist college alumni Social Service workers** - To support addiction transition and move away from programs such as Alcoholics Anonymous. With more peer to Social Worker and peer to Therapist Solutions.

## **Philosophy**

**New Deal-style Social Democracy** - Productive companies are great! For Rich CEOs and the elite. The rest of us are starving and possibly addicted to heroin. Productivity demands are great for someone's bottom line. However, it causes Chronic pain disorders, Anxiety disorders, and missing work/life balance. Which leads to the downfall of the new Young adult family as well as just a general taste for Heroin.

**Probable Expenses:**

- Expanding Government-owned housing This is what Doug Ford calls Soviet-style housing. Can't run a profit-hungry society without everything going up in price though. Gearing it to income will lead to better maintenance.
- Centralized Counseling & Psychotherapy services
- Legal Services to obtain Identification for Homeless people.
- Service Websites for Socialized housing
- Service representatives

**The probable Market cost \$5 million .**

**Cost of not doing it.**

- Entrepreneurs won't be allowed to own a Downtown Business. You will be occupied by Homeless squatters
- Destruction by Winter Campfires. Described as 'It looks like a bomb went off!'
- Broad Collapse of the Productive Community.

**Time to actualize our social spending needs DIPSHITS! Stop voting like an evangelical Christian and start voting like someone who understands Fiscal policy related to you.**
